

# The Savings Banks Finance Group

The Savings Banks Finance Group is Germany's biggest banking group. Its great strength results from the Savings Banks' locally rooted business model and the close co-operation among its 520 affiliated institutions within a strong group.

Together with its institutions and partner companies, the Savings Banks Finance Group covers the full range of financial needs for retail customers and enterprises in Germany.

## Closeness and responsibility

Savings Banks are usually corporations under public law with local governments as their responsible public bodies. In line with their regional structure, their presence and their business operations are focused on their original home regions. They are independent, decentrally managed and rely on organic growth. To preserve this position, Savings Banks have to manage their business operations in a sustainable manner, and they have to ensure an economic balance for the long term. For this reason, Savings Banks use the profits they generate exclusively to strengthen their equity base and promote the development of their home regions.

## Strong within the Group

The complement to the Savings Banks' local roots is their co-operation within the Savings Banks Finance Group. This co-operation enables the affiliated institutions to specialise and divide responsibilities among themselves, which strengthens the efficiency of all the institutions. Consequently, the affiliated institutions make a major contribution to the responsible and risk-conscious business policy pursued by the Savings Banks Finance Group. The Savings Banks' business model reflects their mission – acting locally, responsibly and with a customer focus.
